

Computers for Kids grateful for donations

Letter

Wednesday, August 23, 2006

On behalf of Computers for Kids, I would like to thank the Ford Windsor Engine Plant and Annex, Community Outreach Committees for their recent generous donations. I understand that the men and women of their particular plants participate in a variety of fundraising activities.

These contributions will enable Computers for Kids to continue to provide computer access to children who would otherwise not have adequate training opportunities. As CAW Local 200 president Mike Vince stated, "we want to give these kids a hand up, not a handout." This continues to be our guiding principle, which would otherwise be impossible without continued community support.

To the Ford Windsor Engine and Annex employees, thank you for recognizing and supporting our community contribution.

JOHN McCLOSKEY
